

Connection Center

For Dentists with the 3M™ True Definition Scanner

It's easy to store, share and connect.

Your best first step to digital dentistry, the 3M™ True Definition Scanner, is supported by the 3M™ Connection Center.

This secure, cloud-based digital hub allows you to store and share unlimited patient scans. From the prescription screen to the final restoration, the 3M Connection Center securely and seamlessly integrates your digital workflow—whether you work with your dental lab, or design and mill chairside.

Trusted and open connections allow you to work the way you want, providing access to multiple digital workflows. You can choose the design or product solution for the best clinical outcome.

Trusted Connections and Workflows

Trusted connections have been tested by 3M to assure seamless performance. The flexible system offers you unlimited potential as more and more connections are approved.

Why a subscription-based data plan?

More value for less money!

3M has redefined the economics of CAD/CAM dentistry with an unprecedented price for the 3M™ True Definition Scanner AND an affordable approach to a data plan, too. Choose the plan that's best for what you want to do. You can always change plans as your practice grows, making the 3M True Definition Scanner an even smarter investment.

Standard Data Plan

For the practice that wants all of the benefits of a digital workflow.

- Work with any lab of your choosing.
- Unlimited scans (no click fees).
- Unlimited secure transfers to the lab.
- Unlimited storage of digital models.
- Software upgrades and updates.

Advanced Data Plan

For the practice that wants even greater freedom, flexibility and expanded opportunities for generating revenue.

- Trusted chairside mill workflow.
- Secure access to open STL files that can be readily imported into a variety of digital workflows.
- Trusted implant workflow.
- Software upgrades and updates.

Compare features. Choose a data plan that's right for you.
